

Professional Summary

Frontend Developer with 2+ years of experience in designing and developing modern, responsive web applications using Angular, React and TypeScript. Experienced in creating reusable UI components, optimizing application performance, and integrating RESTful APIs. Possess strong full-stack development knowledge with PHP, and MySQL, enabling seamless frontend-backend integration. Committed to building scalable, high-quality applications while continuously learning modern web technologies.

Technical Skills

Frontend: Angular, React, HTML5, CSS3, Bootstrap, TypeScript, JavaScript, AJAX, jQuery

Backend: CakePHP, Laravel, RESTful APIs

Databases: MySQL

Version Control: Git, GitHub

Development Tools: Cursor, Visual Studio Code, Postman, Burno

Work Experience

Junior Programmer

Kliotech LLP | Jan 2024 – Present

Project: RouteWorx

Technologies: Angular 17, React, CakePHP, MySQL , JavaScript, jQuery, HTML, CSS

- Developed and enhanced responsive user interfaces using Angular, TypeScript, HTML, CSS, and Angular Material, improving usability and user experience.
- Built and maintained route planning features by integrating interactive maps, markers, clustering, and route optimization using Leaflet and REST APIs.
- Integrated RESTful APIs, third-party services, and payment gateways, ensuring secure, reliable, and seamless data exchange across the application.
- Optimized application performance by implementing lazy loading, reusable components, and resolving complex bugs in legacy code, improving maintainability and responsiveness.
- Collaborated with cross-functional teams in an Agile environment to deliver new features, troubleshoot production issues, and ensure high-quality software releases.
- Provided night shift production support by handling direct client queries, troubleshooting issues, and ensuring timely resolution to maintain business continuity.

Project: DeaMemoPro

Technologies: Angular 19, Angular Material UI

- Established the base project architecture using the Fuse template to support scalable and maintainable Angular development.
- Designed and enhanced the UI/UX for each module, improving usability, responsiveness, and user experience while maintaining consistency across the application.
- Developed reusable Angular components and shared modules, reducing code duplication and improving maintainability.
- Collaborated with the backend team to integrate REST APIs and ensure seamless frontend-backend communication.

Project: Orchid

Technologies: HTML, CSS, Javascript

- Developed responsive and interactive web pages using HTML5, CSS3, and JavaScript with a focus on performance and usability.
- Built modern, mobile-first layouts using CSS Flexbox and CSS Grid, ensuring cross-browser compatibility.
- Converted UI/UX designs into clean, responsive, and pixel-perfect web interfaces following web standards

Certifications

- Google Data Analytics Course - Coursera

Education

Master of Computer Appilcation

Mailam Engineering college – Viluppuram, TN

CGPA: 8.6 | 2021 – 2023

Bachelor of Computer Appilcation

A.M. Jain college – Chennai, TN

Percentage: **72.8%** | 2018 – 2021

Internship

Full Stack Web Development

Nextgen Technologies (Mar 2023 - Jun 2023)

- Gained hands-on experience building full-stack web applications, working across both frontend and backend layers.
- Applied Python, HTML, CSS, and SQL in a real project environment, strengthening fundamentals before transitioning into frontend specialization.

Achievements

- Won 2nd Prize in Quiz at TECHNOQUEST'21 — State Level Technology Symposium.
- State Level Chess Player — competitive chess with strong strategic thinking and focus.

Workshops Attended

- Data Science
- Power BI
- Guidance for App development

Interpersonal Skills

- Strong communication
- Active listening
- Time management
- Team work

Language

- English
- Tamil
